

Husqvarna EPOS™ Plug-in kit

Enjoy the flexibility of a boundary wire free Automower® installation – a new alternative to perimeter cable. This kit, which includes a Husqvarna EPOS™ Plug-in and Husqvarna EPOS™ Reference Station gives you the freedom of completely customisable lawn maintenance by creating precise virtual boundaries via the Automower® Connect app. Create several work areas with different schedules and settings to optimise lawn care. Make wire free temporary stay-out zones to protect seasonal flowers and spaces where children play. A mandatory garden check will be carried out by your local dealer on the purchase of this kit with one of the Automower® NERA mowers. Compatible with Automower® 320 NERA, Automower® 430X NERA and Automower® 450X NERA.
